Personal Structures - Reflections

Personal Structures is a biennial contemporary art exhibition organised and hosted by the European Cultural Centre in Venice, Italy. Since 2011, it aims to feature and combine in the same space different expressions from artists that break away from any ideological, political and geographical barriers. The 2022 edition revolves around the idea of *reflections*, which embodies the dual meaning of a visible episode perceived by the eyes, and a mental deed stemming from the action of thinking and pondering with the mind. As envisioned by the ECC Italy curatorial team, the act of reflecting carries the potential to foresee possibilities and the responsibility of imagining a better future.

The Program

During the opening weeks of *Personal Structures - Reflections*, the European Cultural Centre is hosting multiple events both in-person and online, which will take place at the ECC venues and will also be live-streamed and shared on ECC's YouTube and Instagram channels. The programme includes an engaging artist talk by Galerie Myrtis, an interactive panel presented by the Spanish photo book fair Fiebre, sustainability workshops with artist Karen McCoy, and different stunning performances by artists who will bring their artworks to life.

For more details and to register for all the events visit the site personalstructures.com/events
